

*Third International Workshop on Advances in SAR  
Oceanography from Envisat and ERS Missions*

# **SeaSAR 2010**

25–29 January 2010  
ESRIN  
Frascati, Italy

*Scientific Organising Committee*

W. Alpers (Univ. of Hamburg, DE)  
L. Aouf (MeteoFrance, FR)  
B. Chapron (Ifremer, FR)  
P. Clemente Colon (NOAA, US)  
F. Collard (CLS, FR)  
J. da Silva (Univ. of Lisbon, PT)  
G. Engen (Norut, NO)  
B. Holt (NASA, US)  
W. Huang (SIO, CN)  
J. Horstmann (GKSS Research Center, DE)  
P. Janssen (ECMWF, GB)  
J. Johannessen (NERSC, NO)  
H. Johnsen (Norut, NO)  
M. Junmin (FIO, CN)  
G. Kallos (Univ. of Athens, GR)  
V. Kerbaol (CLS, FR)  
S. Lehner (German Aerospace Center, DE)  
J. Lorenzetti (INPE, BR)  
F. Ocampo-Torres (CICESE, MX)  
I. Robinson (Southampton Oceanography Centre, GB)  
D. Thompson (Johns Hopkins University/APL, US)  
P.W. Vachon (Defence R&D Canada, CA)  
C.C. Wackerman (Veridian Systems, US)

*ESA Organising Committee*

E. Attema, G. Campbell, Y.-L. Desnos, M. Drinkwater, M. Engdahl,  
R. Malosti, S. Pinnock & B. Rosich-Tell

<i>Publication</i>	Proceedings of 'SeaSAR 2010': Third International Workshop on Advances in SAR Oceanography from Envisat and ERS Missions ESRIN, Frascati, Italy (ESA SP-679, April 2010)
<i>Edited by</i>	H. Lacoste-Francis ESA Communications
<i>Published and distributed by</i>	ESA Communications ESTEC, Noordwijk, The Netherlands
<i>Price</i>	€ 40
<i>ISBN</i>	978-92-9221-243-8

# CONTENTS

## Foreword

### Spaceborne SAR Missions

*Chairs: P. Potin & E. Attema*

The Status of the Sentinel-1 Mission and of the Geophysical Information Products

*P. Snoeij, E. Attema, R. Torres et al.*

Future SAR Mission Concepts

*M. Arcioni, M. Aguirre, P. Bensi et al.*

### Methodology and Techniques

*Chairs: (1) F. Collard & H. Johnsen (2) G. Engen & P. Janssen*

On the Spatial Homogeneity of the Wave Spectra in Deep Water Employing ERS-2 Precision Image

*N. Violante-Carvalho, I. Robinson, C. Gommenginger et al.*

Extraction of Wave Field from TerraSAR-X Data

*M. Bruck & S. Lehner*

Ship Speed Retrieval from Single Channel TerraSAR-X Images

*M. Soccorsi & S. Lehner*

Operational Retrieval of Sea-Surface Dynamics from SAR Data for Safety and Security

*G. Carvajal, L.E.B. Eriksson, A. Kononov & S. Dokken*

Deriving Ocean Surface Drift Using Multiple SAR Sensors

*M.-K. Hsu & A.K. Liu*

GECA: ESA's Next Generation Validation Data Centre

*Y.J. Meijer, T. Fehr, R.M. Koopman et al.*

## **Wave Applications**

*Chairs: (1) J. da Silva & F. Ocampo-Torres (2) I. Robinson & W. Huang*

Investigation of Wave Propagation Rays in Near Shore Zones

*A. Pleskachevsky, X.M. Li, S. Bruschi & S. Lehner*

Semi-Empirical Retrieval of Significant Wave Height from Envisat ASAR Imagery

*J. Yang, H. Wang, R. Zhang et al.*

Elevation Internal Waves in the South China Sea Observed with SAR Imagery

*W. Huang, C. Zhang, J. Yang et al.*

Seiches and Internal Waves in the Caspian Sea

*O. Lavrova, M. Mityagina & K. Sabinin*

## **Ice Applications**

*Chair: B. Holt & P. Clemente Colon*

A Comparison of Two C-Band SAR Ice / Open Water Algorithms

*J. Karvonen*

Improved Sea Ice Monitoring for the Baltic Sea – Project Summary

*L.E.B. Eriksson, K. Borenäs, W. Dierking et al.*

Sea Ice Thickness Retrieval in the Baltic Sea Using MODIS and SAR Data

*M. Mäkynen, M. Similä, B. Cheng et al.*

Evaluation of a Sea Ice Algorithm for SAR Data from the Bay of Bothnia

*A. Berg & L. Eriksson*

Sea Ice Monitoring Using Dual-Polarisation SAR

*N. Walker, K. Partington, D. Flach et al.*

## **Ocean Wind Applications**

*Chair: (1) J. Horstmann & M. Engdahl (2) W. Alpers & M. Engdahl*

EU-Norsewind Using Envisat ASAR and Other Data for Offshore Wind Atlas

*C. Hasager, A. Mouche & M. Badger*

On the Use of Doppler Shift for SAR Wind Retrieval

*K-F. Dagestad, A. Mouche, F. Collard et al.*

Chinese HJ-1C SAR and its Wind Mapping Capability

*W. Huang, F. Chen, J. Yang et al.*

Sampling of SAR Imagery for Wind Resource Assessment

*M. Badger, J. Badger, C. Hasager & M. Nielsen*

Comparison of High Winds Retrieved from RadarSat 2 SAR Data with  
*In Situ* Buoy Data and QuikScat Wind Vectors  
*T. Xie & W. Perrie*

Wind Speed Retrieval Using C-Band RadarSat-2 HH Polarized Images and New  
Polarization Ratio Model  
*B. Zhang & W. Perrie*

## **Wave Mode Processing Algorithms, Validation and Assimilation**

*Chair: (1) L. Aouf & G. Kallos (2) S. Lehner & W. Huang*

Empirical Algorithm Developed for SAR/ASAR Wave Mode Data  
*X.-M. Li & S. Lehner*

Evaluation of the New ECMWF WAM Model  
*G. Galanis, G. Kallos, P. C. Chu & Y.-H. Kuo*

Envisat ASAR Level 2 Algorithm: From Error Analysis to Correction  
*J. Yang, H. Wang, R. Zhang et al.*

## **Oil Spills**

*Chair: (1) V. Kerbaol & S. Pelizzari (2) C. Wackermann & G. Campbell*

The PRIMI Project: An Interdisciplinary Approach to Oil Spill Monitoring  
*F. Nirchio & PRIMI Group*

The PRIMI Project: August-September 2009 Validation Cruise on Oil Spill Detection and Fate  
*R. Santoleri & PRIMI Cruise Group*

On the TerraSAR-X Dual-Mode for Oil Slick Observation  
*D. Velotto, M. Migliaccio, F. Nunziata & S. Lehner*

Identification of Illegal Coastal Wastewaters with Multi-Temporal SAR Images  
*F. Nirchio, M. Daraio, A. Antonucci & G. Racanati*

## **Ship Detection**

*Chair: (1) S. Pelizzari & J. Lorenzetti (2) G. Campbell & J. Lorenzetti*

A Performance Comparison of a CFAR Ship Detection Algorithm Using Envisat, RadarSat,  
COSMO-SkyMed and TerraSAR-X Images  
*J.A. Lorenzetti, R.L. Paes & D.M. Gherardi*

Ship Detection Technique Based on K-Generalized Speckle Model Using Polarimetric SAR Data  
*A. Sorrentino, F. Nunziata, M. Migliaccio et al.*

Near Real Time Ship Detection Experiments  
*S. Brusch, S. Lehner, E. Schwarz & T. Fritz*

RadarSat-2 Polarimetric Data for Ship Observation  
*F. Nunziata, M. Migliaccio & C.E. Brown*

Ship Detection Using SAR Polarimetry. The Development of a New Algorithm Designed to Exploit New Satellite SAR Capabilities for Maritime Surveillance

*A. Marino, N. Walker & I. Woodhouse*

Maritime Situational Awareness: The MARISS Experience

*G. Margarit, A. Tabasco & C. Gómez*

## **Ocean Current Applications**

*Chair: J. Johannessen & B. Chapron*

Synergy of SAR and Optical Imagery in Studies of Meso-Scale Dynamics

*V. Kudryavtsev, A. Myasoedov, B. Chapron et al.*

Envisat ASAR: A Speed-Gun in Space

*J. A. Johannessen, B. Chapron, F. Collard et al.*

ASAR Surface Velocity Retrievals in the Northeast Atlantic

*M. W. Hansen, K. F. Dagestad, J. A. Johannessen et al.*

Measuring Surface Current Velocities in the Agulhas Region with ASAR

*M. J. Rouault, A. Mouche, F. Collard et al.*

## **Poster Session**

Island Induced (Sub) Mesoscale Features Around Madeira Archipelago (Initial Findings)

*I. B. Araújo, R. Caldeira & X. Couvelard*

SAR Signatures of Upwelling

*I. Kozlov, V. Kudryavtsev & J. Johannessen*

ASAR vs SeaWinds vs WRF: A Three-Way Look at a Train of the Adriatic Bora Events

*M. Kuzmić, I. Tomažič, I. Janeković & B. Ivančan-Picek*

Eddy Activity in the Baltic Sea Retrieved from Satellite SAR and Optical Data

*O. Lavrova, S. Karimova & M. Mityagina*

Assimilation of SAR Wind Information in Environment Canada's High Resolution 3D-Var Analysis System

*R. Danielson, L. Fillion, H. Ritchie & M. Dowd*

On the Possibility of Radar Remote Sensing of the Mixing Areas Generated by Standing Surface Waves

*O. S. Ermakova, S. A. Ermakov & Yu. I. Troitskaya*

Sun glitter Imagery of the Ocean Surface Phenomena

*A. Myasoedov, V. Kudryavtsev, B. Chapron & J. Johannessen*

## **Session Summaries**

Spaceborne SAR Missions

Methodology and Techniques

Wave Applications

Sea Ice Applications

Ocean Wind Application

Wave Mode Processing, Algorithms, Validation and Assimilation

Ocean Current Applications

## **List of Participants**
