

## SKYSAT IMAGE ACQUISITION REQUEST FORM

Request information	
Request date:	
Requester's full name:	
Requester's e-mail address:	
ESA Cat-1/EO Project ID:	

Product and Collection Parameters	
TOI Start Date	
TOI Stop Date	
Number of Coverages (Frequency) <sup>1</sup>	
AOI Size total (km <sup>2</sup> ) <sup>2</sup> :	
AOI Location (Country):	
AOI File <sup>3</sup> name:	
Comment:	

Standard conditions: Max. Cloud cover:  $\leq 15\%$ ; Cloud cover threshold applies at AOI level.

Feasibility Study will provide the results and informs if Planet is able to acquire images over the AOI within requested time frame. If feasibility study will be negative, user has to extend the TOI or modify the AOI.

Planet will deliver the Products in a manner agreed upon by the Parties. Planet will use best efforts to perform delivery. In the event imaging conditions prevent complete delivery, the Client may extend the time window up to thirty (30) days at no extra cost.

- (1) how often would you like to collect images over your AOI (e.g. weekly, monthly, daily)
- (2) minimum AOI size is 25km<sup>2</sup>. If you have a multipolygon file, make sure that size of each polygon inside is 25 km<sup>2</sup> and above.
- (3) Name of the AOI file to be provided as shape or kml file in geographic coordinates (decimal degrees) / WGS84
