TAKING THE PULSE  
OF OUR PLANET FROM SPACE

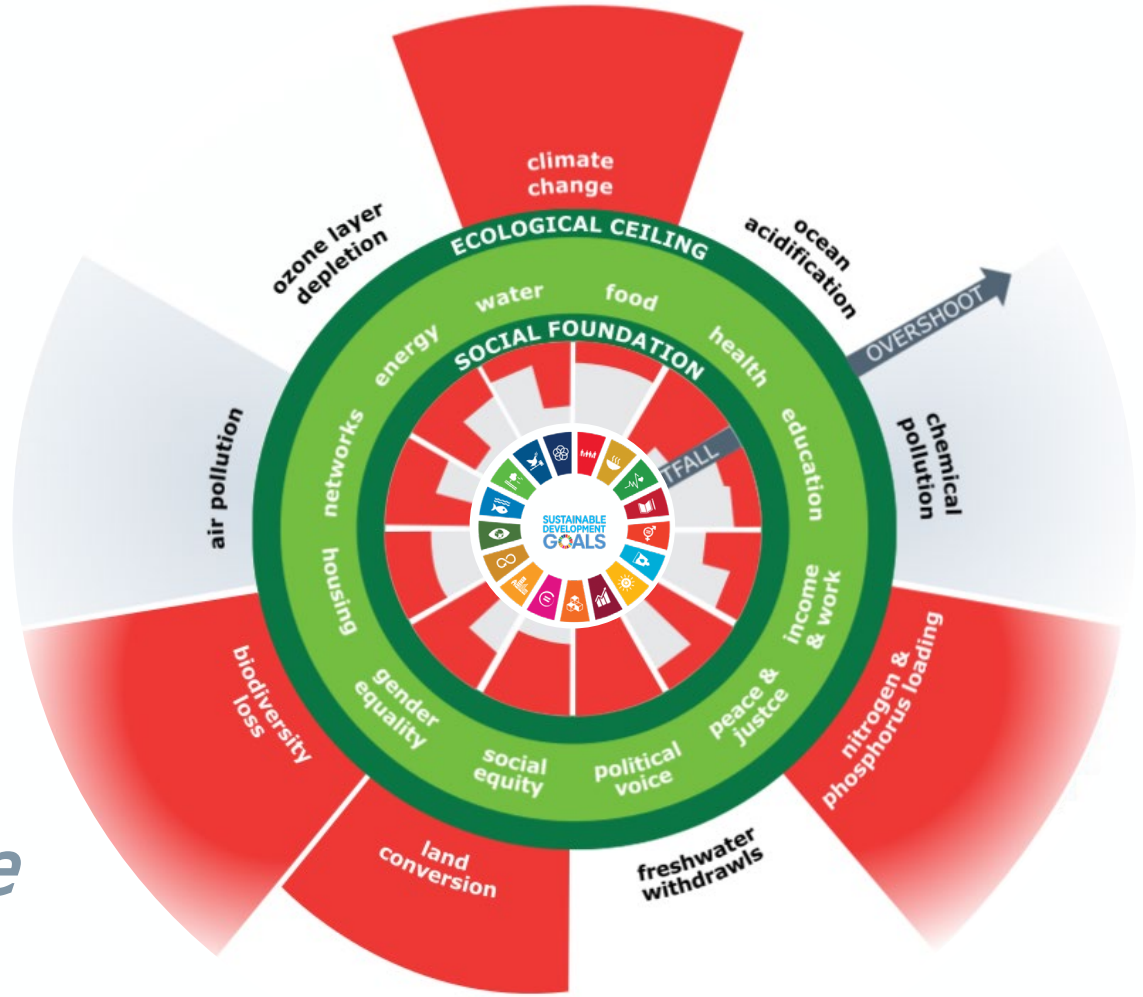

## Participatory Design for Earth Observation: The ATLANTIC-EO Community Activity

Pedro Ribeiro

23<sup>rd</sup> May 2022 – Agora Atlantic Regional Initiative

*Humanity is standing at the crossroads of multiple crisis of global scale*

*... but we might just be able to find our "sweet spot" to thrive*

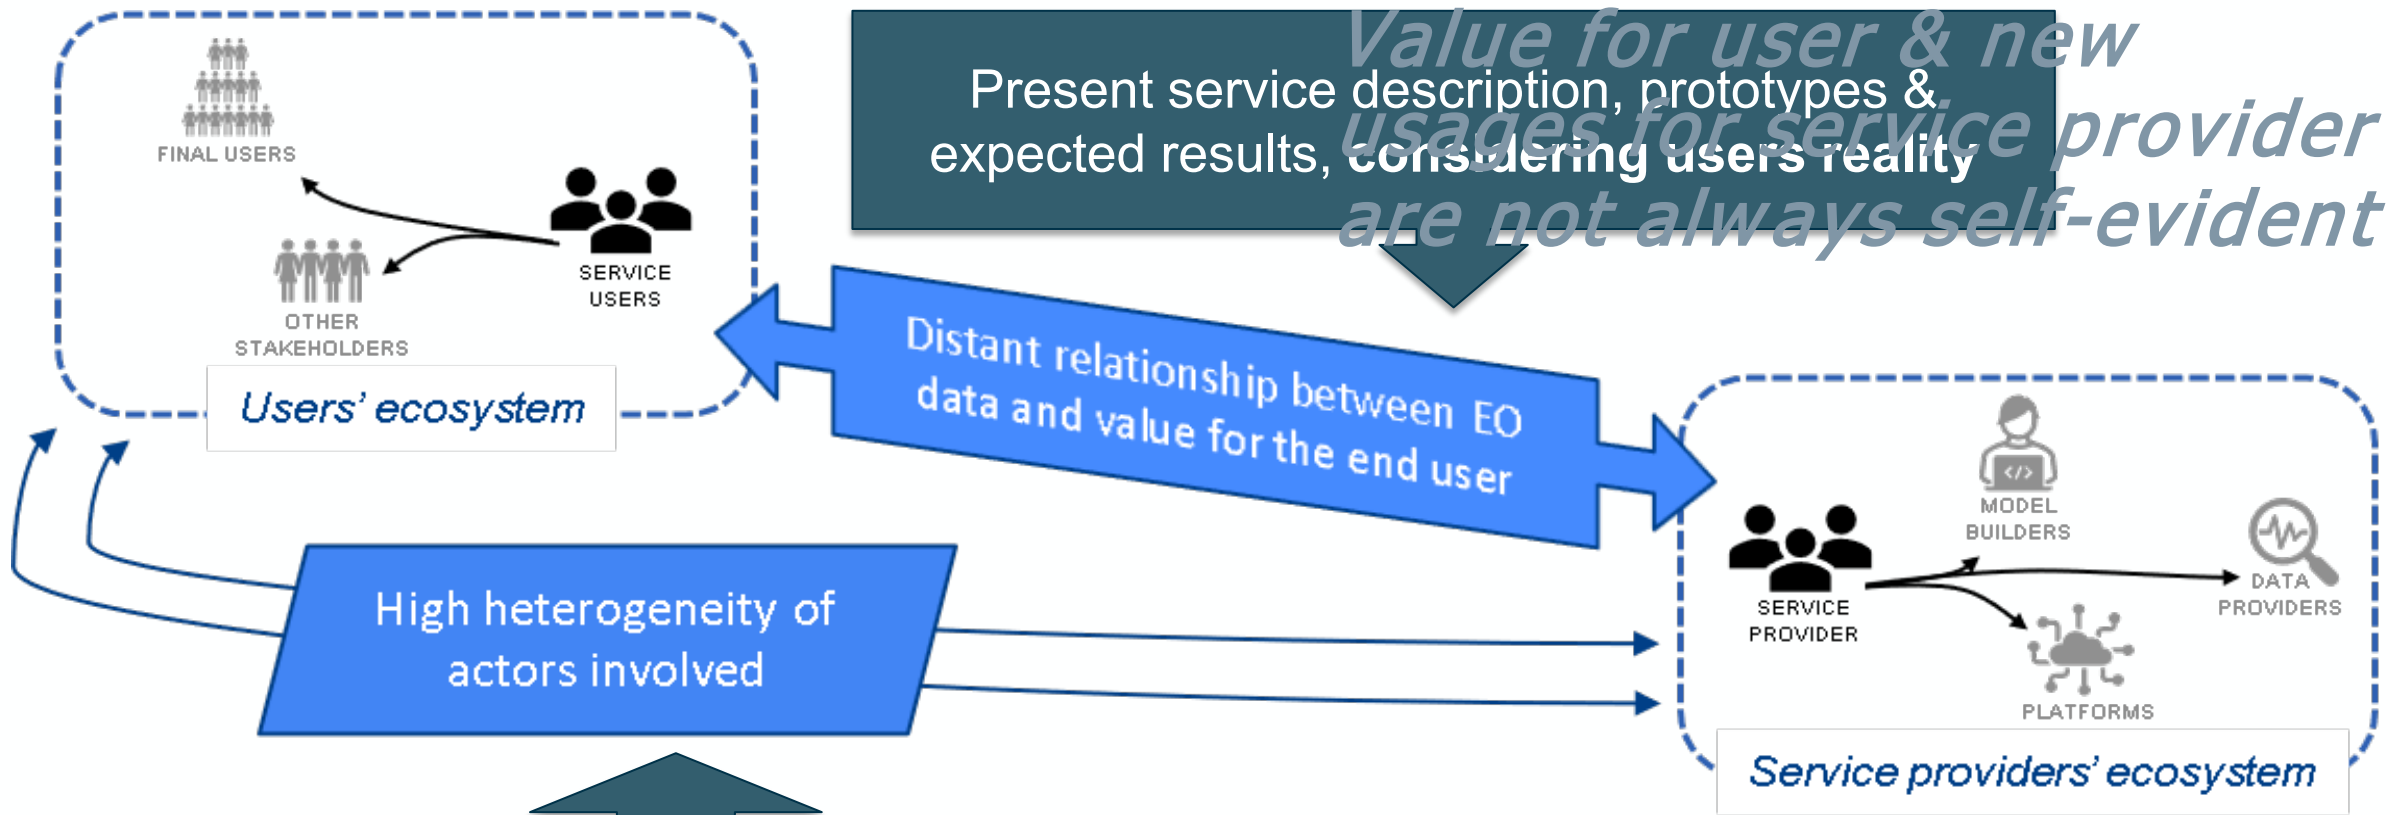

*"Any form of observations of the Earth system"*

*DTE: a tool for scientific discovery and simulation of different scenarios and adaptations pathways*

Understand users & service providers ecosystem and consider their needs & capabilities

EO framework in the Atlantic is very rich and diversified

How to address global issues on a local/regional scale?

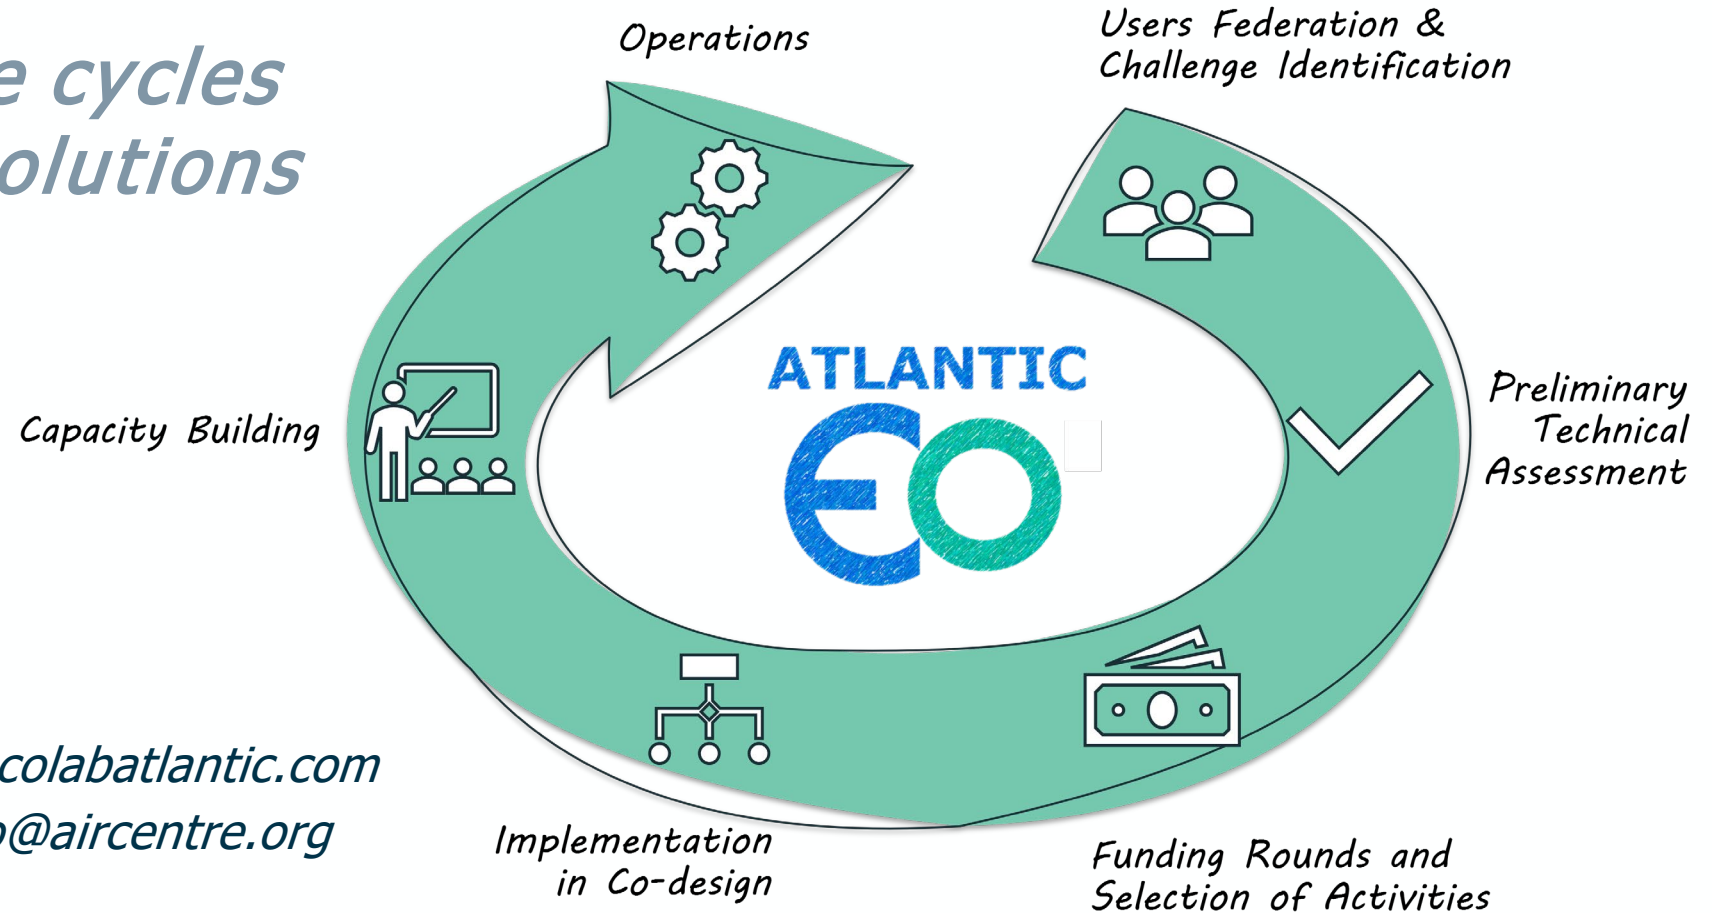

*A GEO Community activity to share experiences with EO that have strong societal impacts within the Atlantic countries*

*Identify local challenges and solutions to cope with them, creating the conditions for local capacity building*

*Focus on Challenge cycles ensure impact of solutions*

*Join us:*
