**Programme Manager**

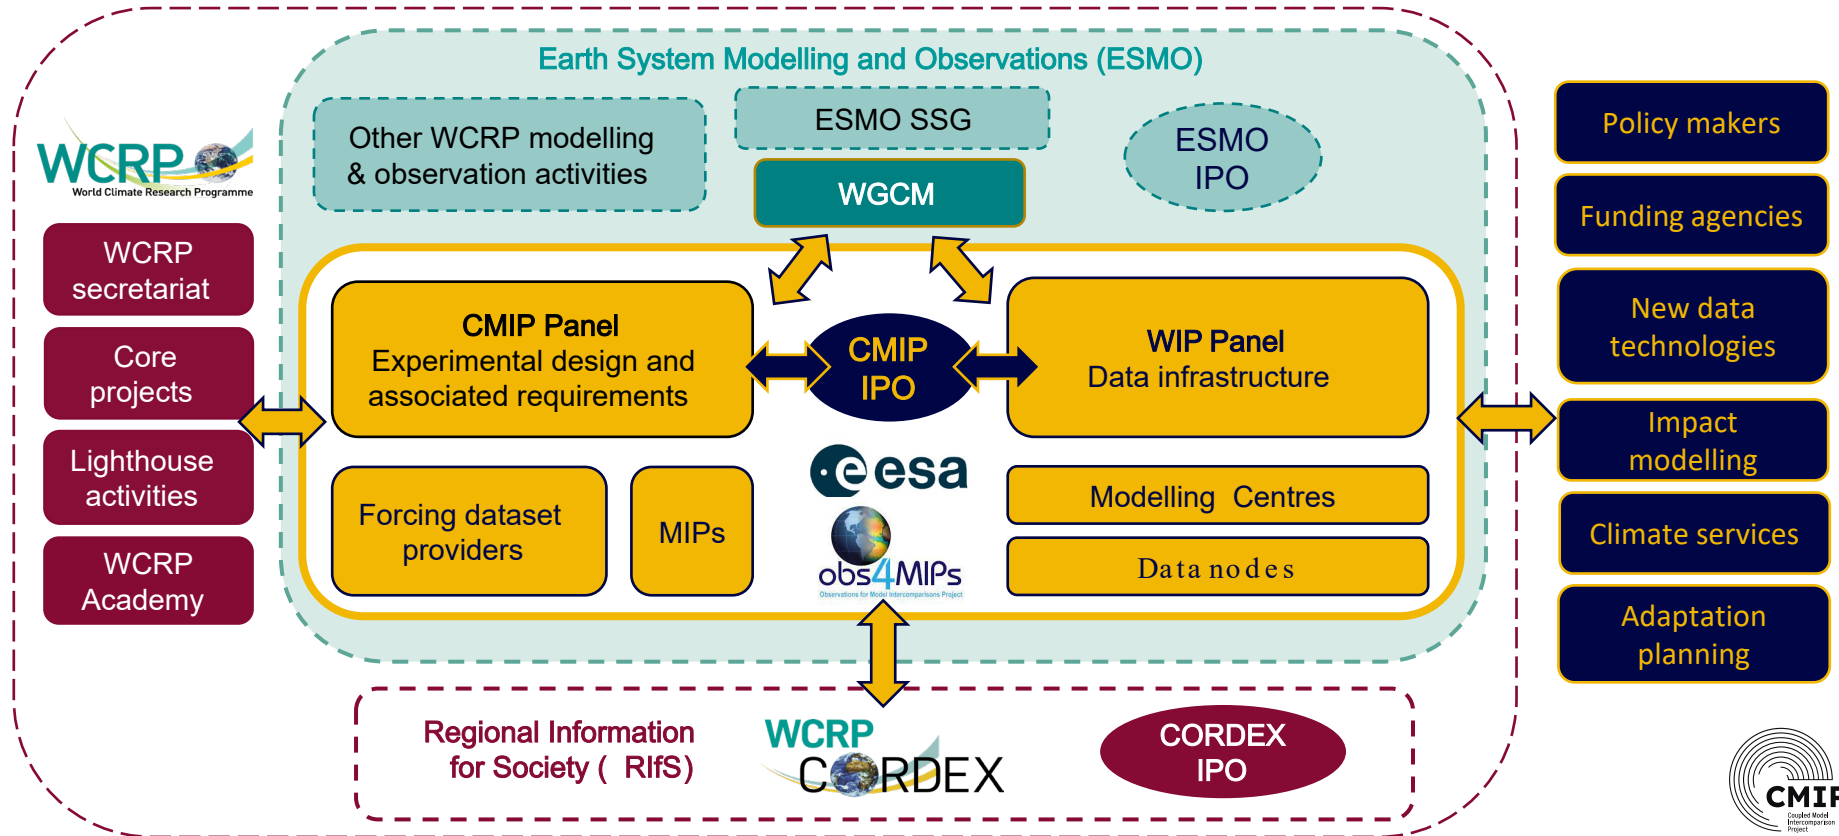

**Annia Domènech**

**Science & Communications  
Officer**

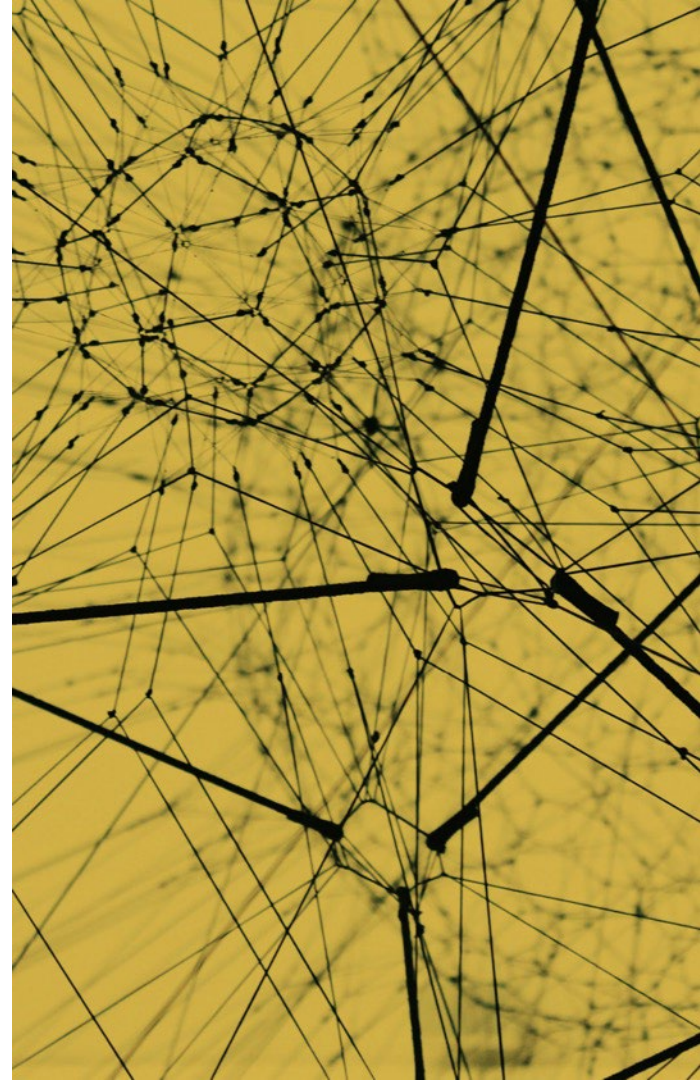

# Communication and coordination

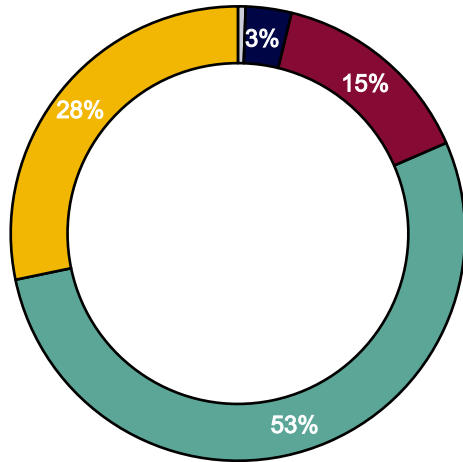

# Facilitating development of CMIP7

- The CMIP6 Community survey was launched in early 2022, and its analysis is a key priority for the IPO.
- Continuing the CMIP principle of community driven experiment design, the IPO will be facilitating further community and user engagement over the coming months.
- The IPO will be working closely with the CMIP panel, and wider CMIP and user communities, to support the definition of the next phase of CMIP.

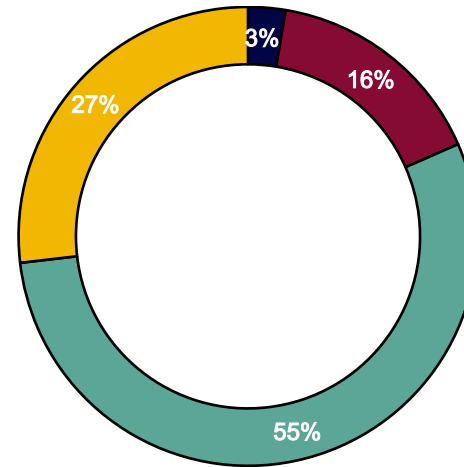

# CMIP6 Survey headlines

Overall scientific focus

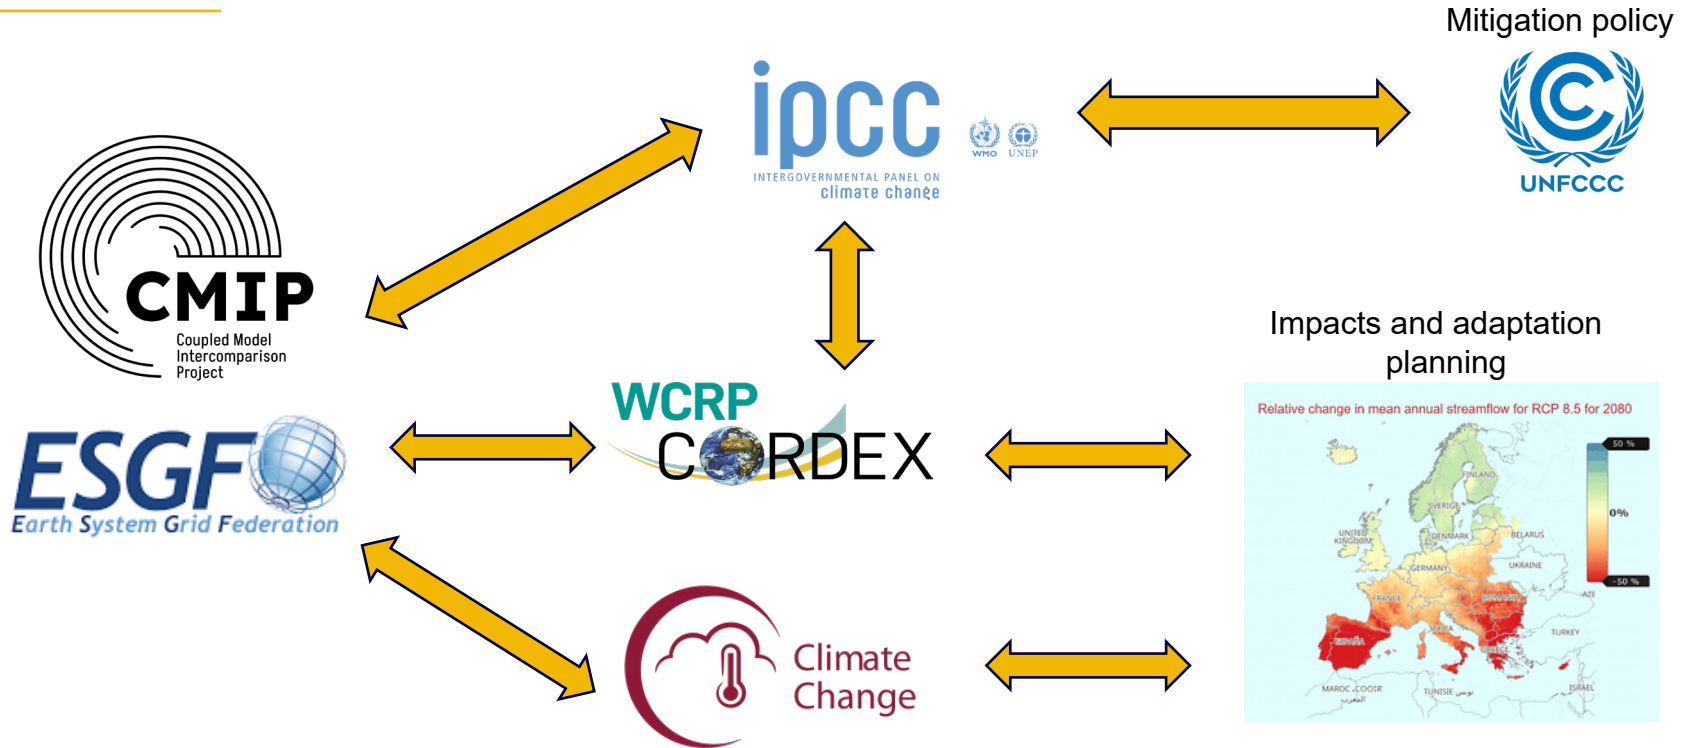

Do MIPs address scientific priorities and goals of the community

Very Dissatisfied Dissatisfied Neutral Satisfied Very Satisfied
