The National Strategic CAP Plan

Member States develop a national strategic plan

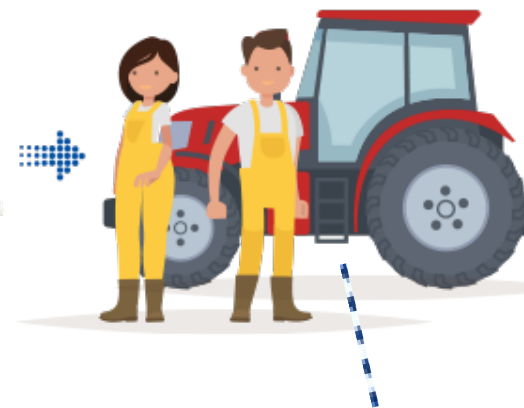

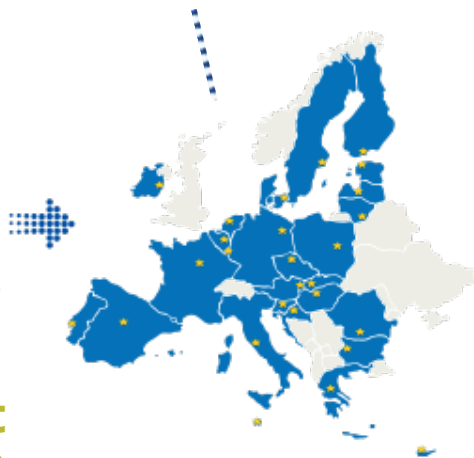

SWOT, identification of needs, interventions strategy incl. setting targets

Performance report and review

European frame (basic act and secondary legislation)

9 Specific Objectives, indicators, conditionality, types of interventions, financial allocations...

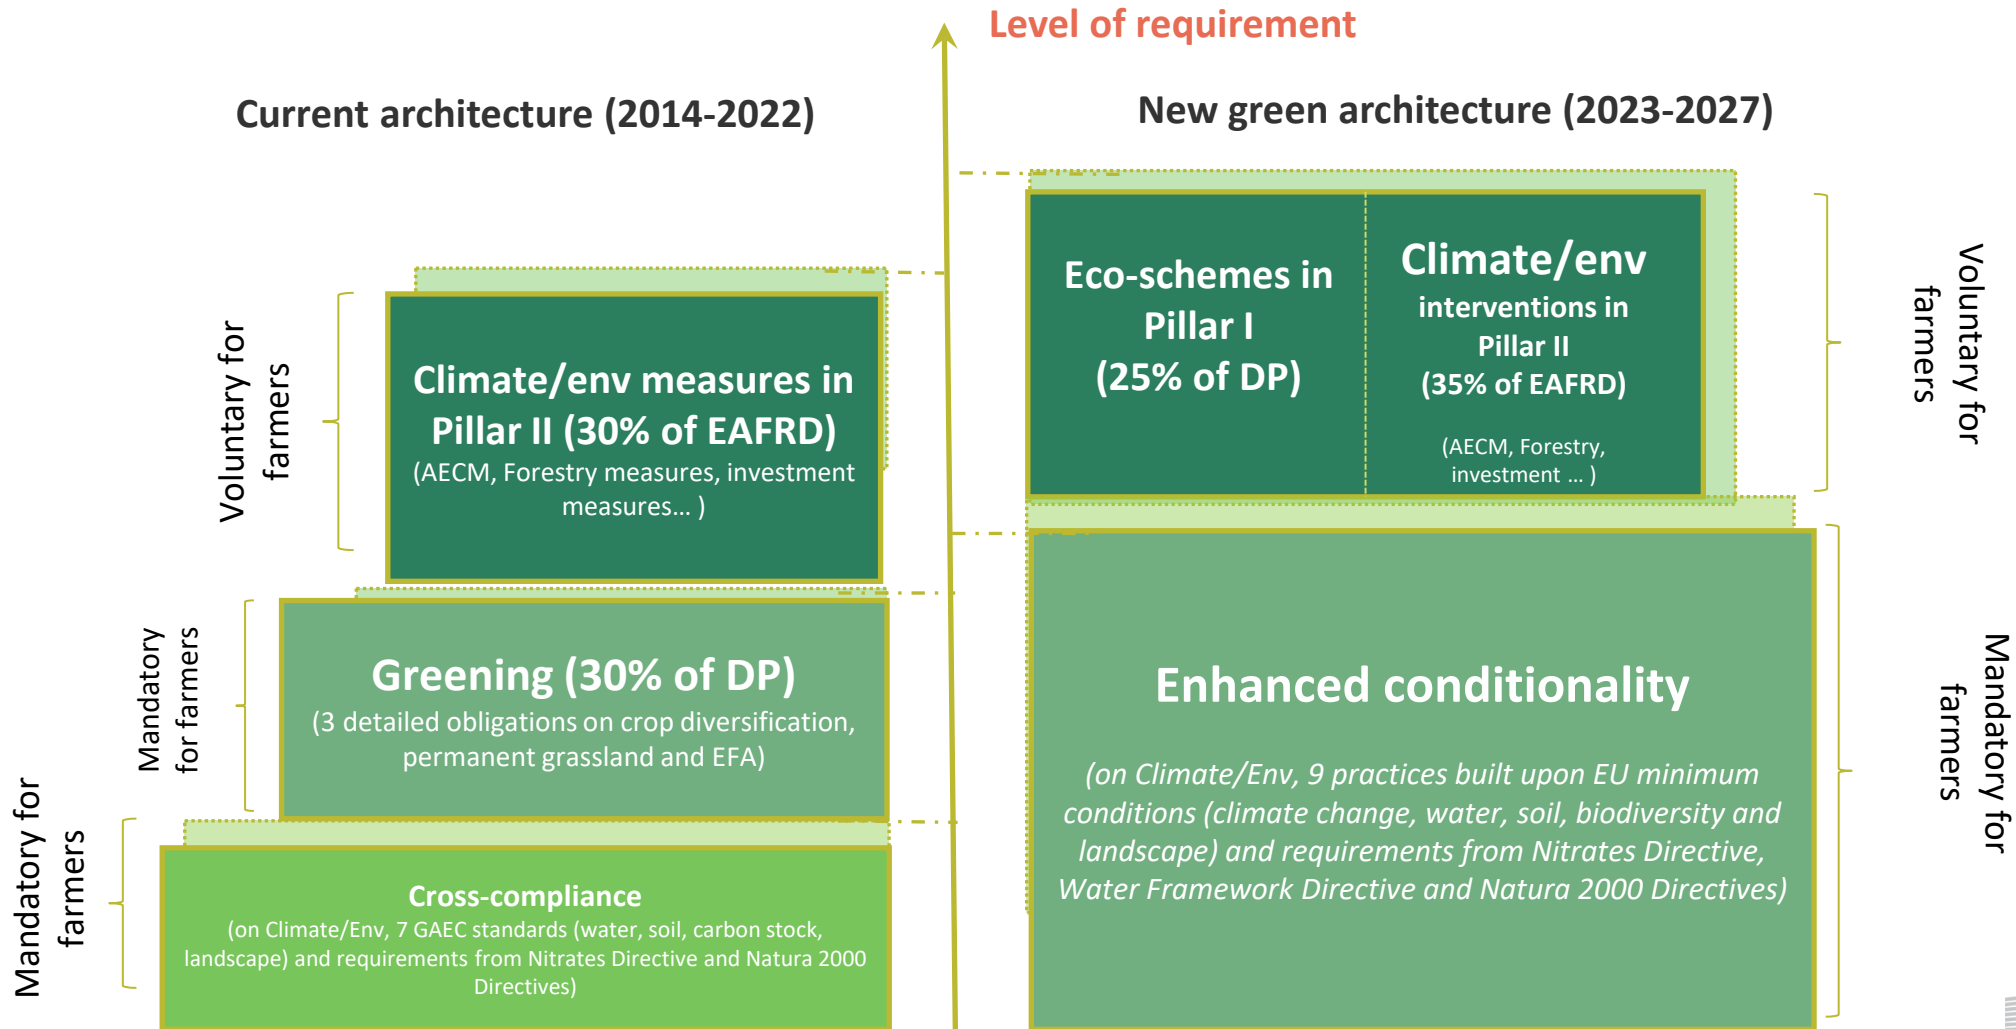

Implementation better adapted to regional and local reality

To improve the economic, social and environmental performance

The new Green architecture

Eco-schemes

- Schemes for the climate, the environment and animal welfare
- EU-wide and **simple** legal framework that leaves **flexibility** to Member States while ensuring a **level playing field** and ambition of eco-schemes
- Compulsory for Member States, voluntary for farmers
- Practices under eco-schemes to contribute to different specific objectives
